PROTECH ANNOUNCES COMPATIBILITY WITH MICROSOFT WINDOWS® 7 AND WINDOWS SERVER® 2008 R2

Columbia, MD — October 22, 2009 — Protech today announced that its current application suite, Protech Business Solutions 4.1, is compatible with Microsoft Windows® 7 and Microsoft Windows Server® 2008 R2. This compatibility offers customers enhanced security, as well as innovative user interface features and reliability improvements.

“Our ISV community is alive with innovation, and we’re committed to helping our partners drive the next generation of software experiences,” said Ross Brown, Vice President of ISV and Solutions Partners for the Worldwide Partner Group at Microsoft. “Adding compatibility for the latest Microsoft operating systems helps ISVs to stay ahead of the competition and give their customers access to cutting-edge technologies.”

“Protech is excited to announce this most recent compatibility,” said Frank Bruffey, III, Chief Technology Officer at Protech. “Making our application compatible with Microsoft Windows 7 and Microsoft Windows Server 2008 R2 is part of our commitment to minimizing our customers’ cost of ownership by ensuring that their applications will always work with the latest technologies at no additional cost to their organization. It helps us offer our customers compelling benefits, including improved security and reliability features, advanced graphic hardware acceleration, full support for multi-core processing, sophisticated management features, and flexible access administration to improve mobile working.”

Protech Business Solutions include CRM for Members, SharePoint for Members and Web Portal for Members. These applications feature a familiar interface and work seamlessly together to provide associations a centralized location for managing virtually every aspect of their business operations and member interactions.

About Protech Associates, Inc.

Since our founding in 1984, Protech has been a leader in developing and implementing superior association management systems exclusively for the association industry.
